EXPERIENCE

Web Developer Intern

January 2018 – Present

Turner Broadcasting System – Cartoon Network

- Convert PSDs manually to front-end code with HTML and CSS for the Cartoon Network website.
- Accomplish game launches, page updates, and various minor enhancements to aid in the development process.
- Work in an Agile environment using Scrum and JIRA to collaborate with the development team.

Web Developer Intern

January 2017 – August 2017

Turner Broadcasting System – Adult Swim

- Assisted in the development of weekly homepage updates and other webpages related to company shows and streams.
- Employed AJAX to interact with the Turner API and fetch data related to drawings submitted by visitors on the homepage.
- Implemented an interactive list of Adult Swim's projects with Vue.js in class-based syntax instead of just HTML and CSS.
- Performed QA tests on video player to ensure proper functionality, browser and device compatibility, and ad delivery.
- Accomplished data management in internal CMS, daily chat moderation, and online search of unwanted bootleg links.

WordPress Developer Intern

September 2016 – October 2016

Innovagears

- Developed, designed, and optimized client's website with WordPress and common web technologies.
- Used BugHerd to effectively communicate with the client, track assignments, and keep work flow going.

PROJECTS

Book Catalog (MEVN)

December 2017

- Built a full-stack app by accessing data with Mongoose, creating a RESTful API with Express, and consuming them with Axios.

Suri (Vue.js & Laravel)

August 2017 – December 2017

- Used Axios and promises to send AJAX requests, consume REST API, and perform CRUD operations on student data.
- Configured routes with vue-router to update dashboard pages dynamically without reloads from the server.
- Designed the user interface and user experience in clean SASS with minimal Bootstrap.

Xenoblade Chronicles Quiz (AngularJS)

December 2016

- Built a quiz app on the front-end, and fetched hardcoded-JSON data to load questions and answers.

Twinkle (MEAN)

August 2016 – December 2016

- Contributed to requirements and applied SDLC principles using a modified Waterfall methodology.
- Complied with creative director's mockups and suggestions to design the user interface and user experience.
- Improved front-end skills greatly, especially SASS and AngularJS.

Visual App (Ruby on Rails)

February 2016 – April 2016

- Leveraged in-class knowledge and external resources by brainstorming app ideas, modeling use cases and class diagrams, designing wireframes, and implementing code to develop a visual image hosting app.

Super Elite: Space Adventure! (Java)

August 2015 – December 2015

- Contributed to a series of documentation and applied SDLC principles using Waterfall methodology.
- Designed and implemented player character, character stats, and basic combat system.
- Passed a series of JUnit tests for exceptions, and optimized code by refactoring and removing bugs.
