EXPERIENCE

Brightree   September 2019 - Present
Associate Software Engineer
- Develop customer-facing features with ASP.NET for Brightree's Connect, a patient contact management software solution.
- Lead Connect's automation team by maintaining and creating tests to facilitate developmental and QA tasks.
- Assist in company initiative to enhance website performance and scalability by using ViewState and Redis instead of Session.
- Reduce technical debt by removing IDE warnings and improving code quality, helping to speed up local build processes.
- Work in four-week sprints in an Agile environment using JIRA to collaborate with cross-functional teams.

SimplePart   September 2018 – August 2019
Junior Developer
- Developed SimplePart's e-commerce platform with ASP.NET for top OEM dealers such as Toyota, BMW, Lexus, and Audi.
- Built new platform features with C# while refactoring redundant functions to use class-based methods instead.
- Ported existing websites like GM and Isuzu brands to a more modern platform using reusable front-end components.
- Designed webpages based off of InVision mockups using LESS and BEM to create modern and consistent designs.
- Applied responsive web design, cross-browser compatibility, and WCAG principles to improve the user experience.
- Wrote DML queries and stored procedures against a SQL Server database to gather, update, and pull data-driven content.
- Performed extensive manual QA tests across all platforms and environments to ensure high-quality and bug-free content.
- Worked in two-week sprints in an Agile environment using Azure DevOps to collaborate with cross-functional teams.

Turner Broadcasting System – Cartoon Network   January 2018 – May 2018
Web Developer Intern
- Performed a series of data migrations from a fully Java-based back-end to a Drupal CMA as part of Turner's initiative.
- Integrated Conviva's SDK on website's video player by using its API and extracting a series of metadata objects.
- Implemented complex security protocol changes on CartoonNetwork.com ahead of the Chrome 68 update.
- Designed webpages with front-end code based off of PSDs and employed responsive web design on CartoonNetwork.com.
- Accomplished game launches, page updates, and various minor enhancements to aid in the development process.
- Worked in a one-week sprint in an Agile environment using Scrum and JIRA to collaborate with cross-functional teams.

Turner Broadcasting System – Adult Swim   January 2017 – August 2017
Web Developer Intern
- Assisted in the development of weekly homepage updates and other webpages related to company shows and streams.
- Employed AJAX to interact with the Turner API and fetch data related to drawings submitted by visitors on the homepage.
- Implemented an interactive list of Adult Swim's projects with Vue.js in class-based syntax instead of just HTML and CSS.
- Performed QA tests on video player to ensure proper functionality, browser and device compatibility, and ad delivery.
- Accomplished data management in internal CMS, daily chat moderation, and online search of unwanted bootleg links.

PROJECTS

Suri (Vue.js & Laravel)
- Used Axios and promises to send AJAX requests, consume REST API, and perform CRUD operations on student data.
- Configured routes with vue-router to update dashboard pages dynamically without reloads from the server.
- Designed the user interface and user experience in clean SASS with minimal Bootstrap.

SKILLS

Languages
HTML5, CSS3, JavaScript, C#, VB.NET, SQL

Technologies
Bootstrap, SASS, LESS, jQuery, Vue, ASP.NET, SQL Server

Tools
Git, NPM, Bower, Gulp, Webpack, GitHub, JIRA, Azure DevOps

Concepts
Algorithms, Data Structures, OOP, SDLC, Agile, Scrum, UI/UX/Responsive/Graphic Design, BEM

EDUCATION

Georgia Gwinnett College   December 2017
B.S. Information Technology (Software Development)   GPA: 3.76
Awards: Dean's List, President's List, Magna Cum Laude
Coursework: Advanced Programming, Advanced Databases, Web Development, Software Development, Software Testing & QA
